

## 5th Grade Social Studies Pacing Guide

---

### **FIFTH GRADE**

#### **United States Studies: Beginnings to the Industrial Revolution**

Fifth-grade content standards focus on the United States from the prehistoric period to the Industrial Revolution. Instruction addresses the strands of economics, geography, history, and civics and government from the earliest times through the formation and growth of the nation to the latter part of the nineteenth century with an emphasis on the development of the American Republic. Students also become familiar with major events in the periods of the American Revolution, the Westward Expansion, the Civil War, and Reconstruction.

Fifth-grade students benefit from a positive classroom environment that provides learning activities designed to optimize growth and achievement, including lessons that integrate a variety of appropriate and effective instructional strategies from hands-on activities to inquiry-based learning. By developing and monitoring goals for their own learning and behavior, fifth graders are able to gain a greater sense of responsibility for their own actions, including how these actions may affect fellow classmates.
